THE

Offering Memorandum

A premier beachfront investment offering on the [redacted] coastline

STRICTLY CONFIDENTIAL. NOT FOR DISTRIBUTION.

Unique Oceanfront Development Opportunity

A rare chance to acquire or partner on a fully approved luxury condominium project on one of the most supply-constrained stretches of the shoreline.

The Project

A compelling development deal with approvals in place, a clear path forward, and strong tax incentives

Waterfront homes are highly desired by upscale buyers, and demonstrating durable pricing premiums

The Dunes is the most compelling remaining oceanfront condo development on "Luxury Row"

The only undeveloped beachfront lot in , one of the few on entire shore

Market demand validated by comparable nearby developments

Fully permitted and construction-ready

IRS-approved Opportunity Zone location

Estimated Project Cost	Estimated Sellout (Base Case)	Estimated IRR	Estimated Multiple
$98.8M	$211.0M	23–29%	2.0X–2.4X

A rare opportunity offering scarcity, validation, readiness, and significant potential upside

Premium Beachfront Residences

2-acre oceanfront site on emerging "Luxury Row"

109 premium condo units totaling 145,693 livable square feet

Upscale recreational and fitness amenities

Outdoor pool with ocean view

Fine dining and shopping a short ride or walk away

STRICTLY CONFIDENTIAL NOT FOR DISTRIBUTION.

A Perfect Storm of High Demand and Limited Supply

Upscale buyers are increasingly seeking beachfront homes – and [redacted] is increasingly seen as the destination.

The luxury residential market is gaining traction, with waterfront homes the most desirable for buyers and demonstrating durable price premiums.

Waterfront Sites

Particularly desirable in high-end coastal markets
(National Association of Realtors[1])

Beachfront Property

Most sought-after waterfront location globally, with an average 63% premium
(Knight Frank[2])

The [redacted] Shore, known for its iconic boardwalk culture, boasts 27 million annual visitors. The crown jewel is [redacted], once known as the "[redacted]". It is now "rebranding as a luxury travel destination," driven in large part by upscale condo development and stronger buyer demand.
(Business Insider[3])

Condo pricing in [redacted] continues to rise ([redacted] Realtors[4])

Inventory remains tight (1.7 months supply) ([redacted] Realtors)

[redacted] median home price almost 2x [redacted] County
(Realtor.com[5])

Why [redacted]?

Lifestyle + affluence + connectivity

8.2 miles of oceanfront boardwalk, supported by municipal investment and long-term infrastructure commitment, ensuring sustained quality and accessibility

Direct connectivity to Manhattan (approximately 1 hour) via [redacted] rail, with additional ferry access from nearby [redacted], a premier beachfront destination offering curated dining, retail, and entertainment, serving as a central lifestyle anchor for residents and visitors

Positioned within the [redacted] most desirable coastal corridor, with close proximity to [redacted]—each offering a distinct mix of culture, dining, and affluent community appeal

Netflix's $1B [redacted] studio is driving 5,000+ jobs and attracting a new wave of creative professionals fueling demand for nearby luxury housing and lifestyle destinations.

STRICTLY CONFIDENTIAL - NOT FOR DISTRIBUTION

A Prime Location

sits on the last available lot of "Luxury Row," in an investor-friendly Opportunity Zone.

"Luxury Row"

sits within a concentrated luxury shoreline cluster of which has redefined the shoreline.

This prime location provides both services and synergies, as well as branding by association.

Neighboring projects demonstrate high-end pricing and strong amenity orientation, including The and

The site is a walk or short ride to the

Opportunity Zone

The seafront is within an Opportunity Zone, an IRS program to spur development.

It provides tax benefits, such as temporary deferral of capital gains and potential long-term basis advantages depending on holding period and structure.

For investors already evaluating tax-advantaged real estate strategies, offers the unusual combination of institutional-quality location, luxury condo exit potential, and OZ optionality.

Scarcity

Waterfront property is inherently finite, with development rapidly catching up to available stock.

There is only one vacant parcel on the beachfront, and will be built on it.

Of 75 municipalities in the Opportunity Zone, is one of only four on the oceanfront. ( )

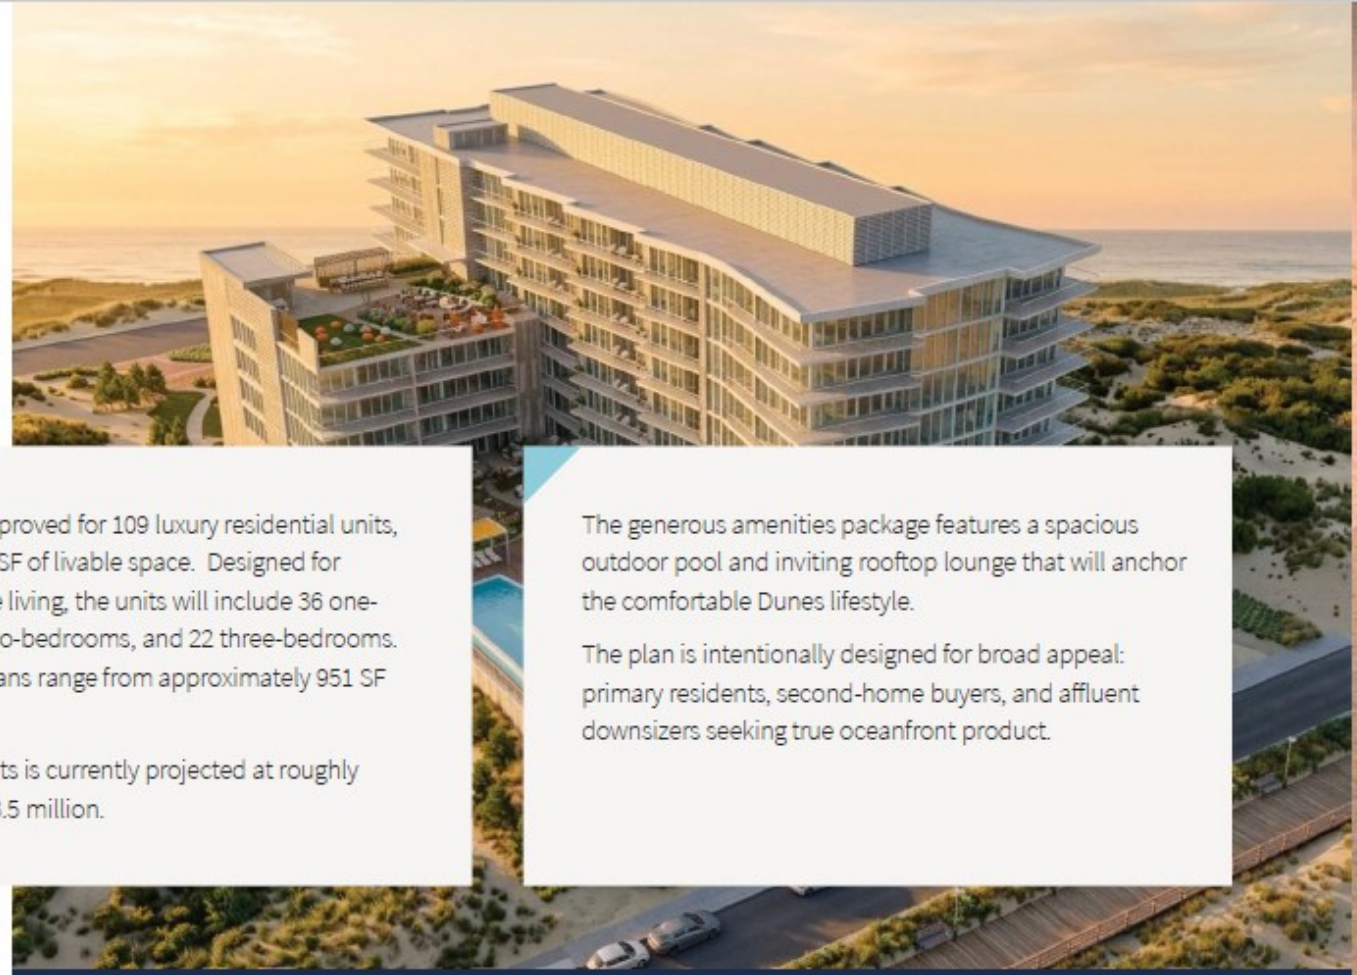

Investment opportunities where major entitlement and legal work are already completed is a rarity.

The Vision

is a luxury oceanfront project purposely designed for a growing segment of highly discerning premium buyers.

With contemporary design, upscale amenities, and direct access to the iconic beach and boardwalk, will offer an irresistible blend of comfort, convenience, and coastal charm for discerning residents.

The site spans approximately 2 acres, with spectacular, unobstructed views of the ocean.

The project is approved for 109 luxury residential units, totaling 145,693 SF of livable space. Designed for modern, carefree living, the units will include 36 one-bedrooms, 51 two-bedrooms, and 22 three-bedrooms. Spacious floorplans range from approximately 951 SF to 2,042 SF.

Pricing of the units is currently projected at roughly $1.2 million to $3.5 million.

The generous amenities package features a spacious outdoor pool and inviting rooftop lounge that will anchor the comfortable Dunes lifestyle.

The plan is intentionally designed for broad appeal: primary residents, second-home buyers, and affluent downsizers seeking true oceanfront product.

The Architect

Architecture, an award-winning firm with a regional footprint, produced the plans for .

The firm, which has a deep feel for the location and an understanding of the target buyers, was the architect of The .

2-Bedrooms

3-Bedrooms

STRICTLY CONFIDENTIAL - NOT FOR DISTRIBUTION.

Construction-Ready

The groundwork has been all but completed…

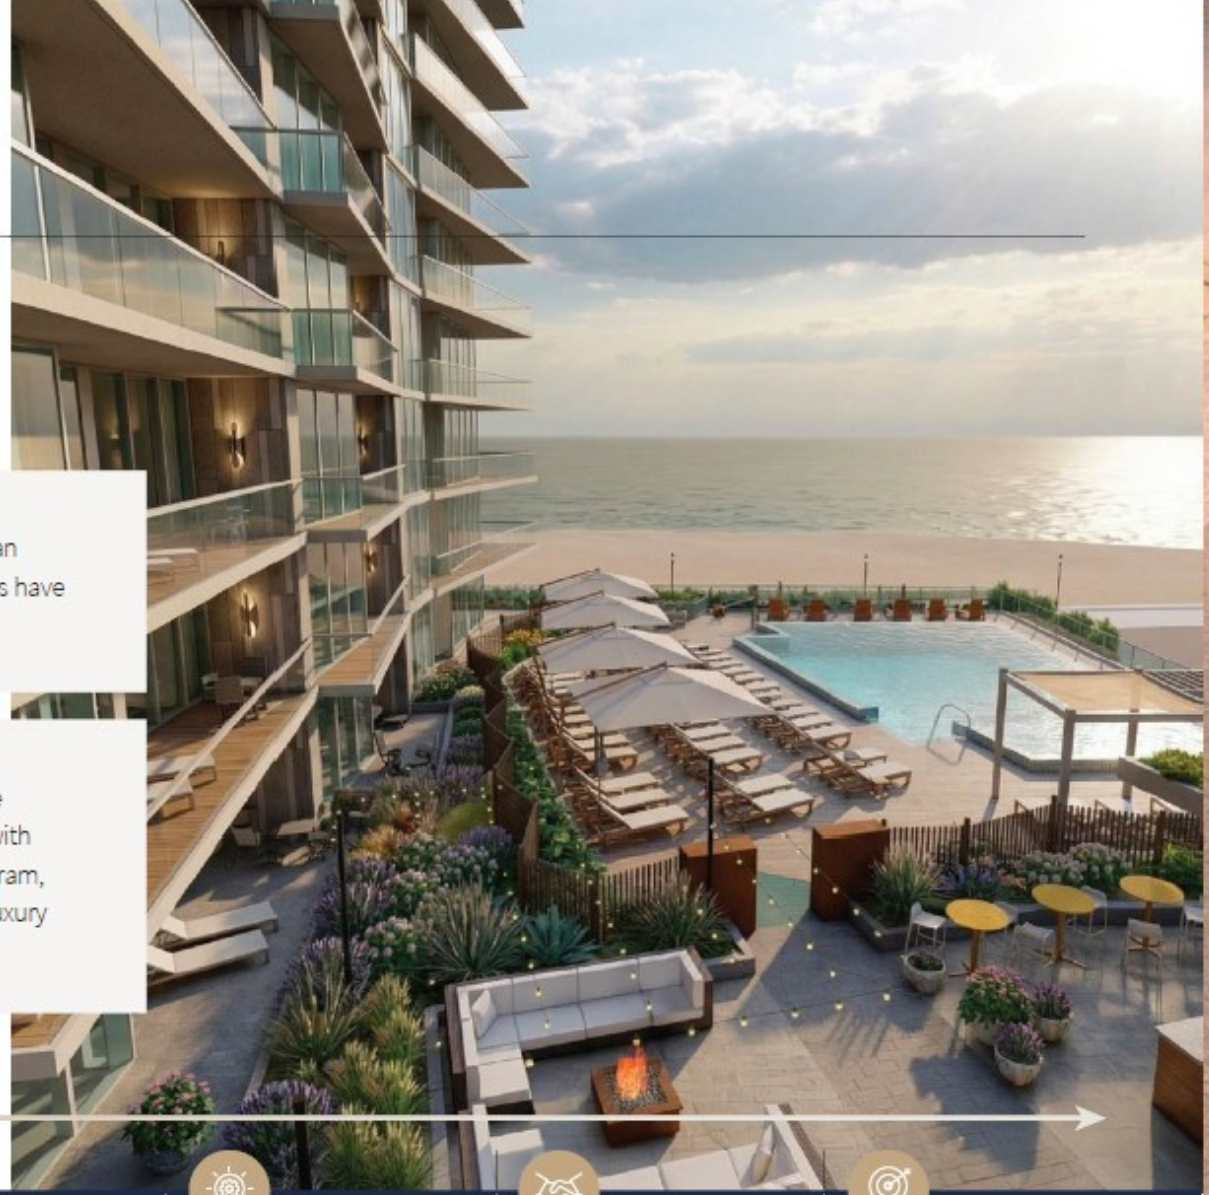

…the remaining value creation is in the execution.

This is not a raw-land story. It is a fully approved project, with strong support from the Long Branch government.

Permitting is also complete and more than half the required construction documents have already been achieved.

A legal challenge postponed progress, but in 2025 it was fully resolved in the project's favor, with no expectation of further risk.

[redacted] represents an unusual chance to invest in an advanced-position asset with approvals in hand, a defined condo program, and a nearby comp set already proving luxury pricing in this exact corridor.

Development Timeline

Land Control	Legal Resolution	Permitting	CDs	Design Process	Investor/Partner Participation	Execution & Sales
100%	100%	100%	50%	100%

A Proven Business Model

The [redacted] and other standout properties on Luxury Row have proven that this submarket can support premium oceanfront condominium pricing.

The [redacted], situated just south of [redacted] on "Luxury Row", is a 132-residence luxury condominium project with 75,000+ SF of indoor and outdoor amenity space.

Construction and sales are currently underway, with 50% of its capacity sold to date at pricing reaching well into premium territory.

This reinforces the fact that [redacted] is entering an already legitimized product category.

[redacted] Pricing

Bedrooms	SF	Average Sale Price	Average Price/SF
1	993	$1.3M	$1,309
2	1,447	$2.3M	$1,589
3	1,737	$3.8M	$2,187
Penthouse	$2,810	$5.5M	$1,957

[redacted]

High-end residences in a retail and dining hub

Bedrooms	SF	Average Sale Price	Average Price/SF
1	963	$1.4M	$1,422
2	1,502	$1.7M	$1,111
3	1,613	$2.4M	$1,487

[redacted]

Glass-walled Miami-inspired complex

2	1,808	$2.6M	$1,414
Penthouse	2,200	$3.0M	$1,363

STRICTLY CONFIDENTIAL NOT FOR DISTRIBUTION.

Strong Pricing Strategy and Targets

[redacted] pricing has been designed to be competitive while maintaining its positioning as a high-end, luxury brand residence.

The strategy is keyed to the neighboring comparable properties, particularly the [redacted].

Target pricing is intentionally at or near the strongest benchmark, but not above it, to protect the brand of a premium oceanfront residence while still leaving buyers room to see value versus the most aggressive comp in the corridor.

The objective is for potential buyers to recognize a more rationally priced oceanfront alternative with similar location appeal and strong amenities.

	1	2	3
	Priced as the entry point to the brand, providing a strong "value within luxury" opening offer.	The core of the revenue strategy for both absorption and gross sellout, priced to capture the broadest buyer pool (second-home buyers, downsizers, and affluent primary residents) while still comparing favorably to the Atlantic Club.	Push price per foot more aggressively because larger-format oceanfront units are scarcer and more comparable to the top end of the local luxury market
SF	943-1,035	1,284-1,438	1,791-1,998
Sale Price	$1.15-$1.35M	$1.75M-$2.25M	$2.70M-$3.45M
Price/SF	$1,210-$1,295	$1,345-$1,560	$1,510-$1,725

Absorption Forecast

Presale	0-12 Months	30-40% of units under contract pre-construction
Construction	12-24 Months	40-50% of remaining inventory sold
Final Release & Closeout	24-30 Months	Final 10-20% released at market premium
Presale	0-12 Months	30-40% of units under contract pre-construction

The phased absorption plan is a classic pricing strategy:
Launch at compelling but premium numbers, prove demand, then mark later inventory upward as construction progresses and available product is reduced.

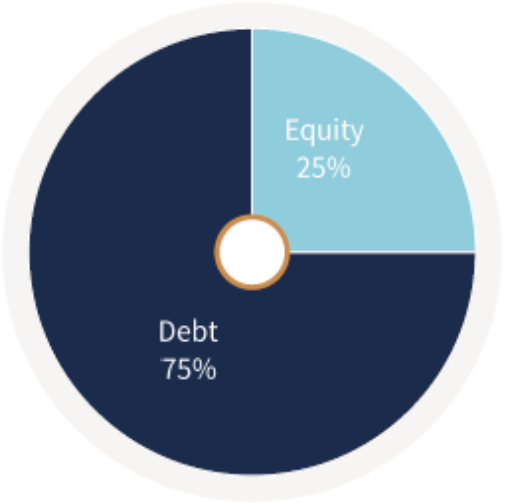

STRICTLY CONFIDENTIAL - NOT FOR DISTRIBUTION.

Estimated Development Costs and Sources

Reasonable projections have been assembled for illustrative purposes, based on comparable projects.

Cost	Amount ($M)	% of Total
Hard costs	72.5	73%
Soft Costs	11.9	12%
Land	N/A	N/A
Financing	6.8	7%
Sales & Marketing	2.8	3%
Contingency	4.8	5%
Total	98.8	100%

Source	Amount ($M)	% of Total
Equity	$24.7	25%
Debt	$74.1	75%

Hard costs include site work, labor, materials, utilities, paving, landscaping, the general contractor's construction work, etc.

Soft costs include legal fees, pre-closing pursuit and due diligence costs, plans and permits, architectural design, civil engineering, impact fees, internal financing fees, construction administration, development overhead, property management, payroll, IT, lease-up fees, and software fees, etc.

Land cost is shown as N/A because the site has already been acquired.

STRICTLY CONFIDENTIAL. NOT FOR DISTRIBUTION.

Estimated Revenue

The conservative base case, as well as the downside case, indicate the project's potential to produce strong revenues.

Unit Type	Units	Downside Case	Base Case	Upside Case
1-Bedroom	36	$1.15M	$1.24M	$1.33M
2-Bedroom	51	$1.79M	$1.94M	$2.08M
3-Bedroom	22	$2.84M	$3.07M	$3.30M
Total	109	$195.2M	$211.0M	$226.8M

Revenue = units × average SF × price/SF. Average SF assumes an even distribution of unit subtypes within each bedroom category, based on the previously displayed unit configurations and pricing targets.

Normalized downside/upside uses a consistent -7.5% / base / +7.5% pricing sensitivity across all bedroom categories.

Downside case reflects softer launch pricing, slower absorption/ more incentives, greater buyer selectivity by unit type, and economic headwinds.

High case reflects scarcity premium on oceanfront supply, faster presales and price lifts, strong mix shift to larger units, and economic tailwinds.

STRICTLY CONFIDENTIAL - NOT FOR DISTRIBUTION.

Estimated Profit and Investor Return

This illustrative sponsor-level projection should be very attractive to qualified parties seeking a differentiated coastal residential play.

Scenario Summary

Scenario	Profit	Investor IRR	Multiple
Downside Case	$96.4M	23%	2.0X
Base Case	$112.2M	26%	2.2X
Upside Case	$128.0M	29%	2.4X

Profit = Gross sellout less $98.8M of ex-land development cost. IRR and MOIC are rounded indicative marketing outputs assuming 25% equity, 75% construction debt and an approximately 30-36-month sellout; they are not the output of a full waterfall model

STRICTLY CONFIDENTIAL - NOT FOR DISTRIBUTION

Key Risks and Mitigation

[redacted] prime location and predevelopment status as fully approved and construction-ready minimize headwinds.

Sellout Pricing/Absorption	Launch below top comp, phase releases, target meaningful presales, and preserve room to raise pricing on later inventory if demand proves out.
Construction Cost/Execution	Use a GMP or tight trade buyout process, retain an owner's rep, front-load procurement, and carry a dedicated contingency reserve.
Financing	Cap leverage at roughly 75% LTC, build interest reserve into budget, and maintain flexibility to pace spend or closings if market softens.
Design Revision	CDs already materially advanced, remaining updates likely to be minimal.
Legal/Entitlement	Major litigation and appeals have been resolved, local government fully supportive.
Coastal Climate/Insurance	Underwrite flood and wind exposure conservatively, align design with resilient coastal standards, and budget for higher premiums and reserve needs.
Economic/Industry Cycle	Lean into scarcity value, target multiple buyer cohorts, and keep pricing and release strategy flexible enough to respond to slower market.

STRICTLY CONFIDENTIAL NOT FOR DISTRIBUTION.

[redacted] Leadership

The project has been progressed by a respected, long-time entrepreneur and real estate developer, as well as professionals well-versed in the region and the upscale market.

An Outstanding Opportunity

Sophisticated investors and developers are invited to explore this prime opportunity on , "Luxury Row."

has assembled an extraordinary package of land, plan, and predevelopment headway, and is seeking a partner or acquirer to see the project through execution.

Two forms of participation are being considered:

Joint Venture

The Owner will contribute the land into a joint venture with a partner that will contribute full development expertise and execution resources.

+

Outright Acquisition

Buyer purchases the project from the Owner and completes execution independently.

Qualified parties are invited to perform diligence through a coordinated review of approvals, plans, legal status, and supporting materials.

STRICTLY CONFIDENTIAL - NOT FOR DISTRIBUTION.

Why [redacted]? Why Now?

A high-conviction opportunity offering a rare combination of **scarcity**, **validation**, **readiness**, and **flexibility**.

Scarcity

In a constrained oceanfront development market, this is the only remaining project of its kind in the most coveted strip on the [redacted] shore.

Proven Pricing

Comparable neighboring projects demonstrate that luxury buyers will pay premium pricing for new oceanfront product in this location.

Reduced Predevelopment Risk

Approvals are already in place, legal hurdles have been cleared, and design work has advanced enough to support serious underwriting.

Execution Optionality

Interested parties are invited to pursue a joint venture or outright sale.

STRICTLY CONFIDENTIAL. NOT FOR DISTRIBUTION.
